

Seafloor™ TRIDRONE

Foldable Uncrewed Surface Vessel for Hydrographic Survey Applications

The TriDrone™ USV is a super-compact, portable platform for conducting hydrographic surveys in confined & remote bodies of water. With remotely controlled capabilities, a durable assembly, and a hull-integrated single beam echosounder, this USV brings automation and efficiency to any work site. The USV gains stability from its triple pontoon design and folds into thirds for one-person transport. Its maneuverable servo thruster steers the USV into previously unreachable zones with heightened precision and repeatability. Safely conduct hydrographic surveys from the shore and increase productivity in the field with the TriDrone™.

KIT INCLUDES

- ▶ TriDrone™ Foldable USV Platform
- ▶ Remote Control
- ▶ Shipping Case
- ▶ Single beam sonar system
- ▶ Carbon Fiber Mast

FEATURES

- ▶ Foldable, compact design ideal for one-person transport
- ▶ Maneuverable servo thruster
- ▶ Hot-swappable batteries
- ▶ Rugged HDPE hulls to withstand elements & field use
- ▶ Quick-release servo housing for setup & breakdown

SPECIFICATIONS

- ▶ Length: 116 cm / 45.6 in
- ▶ Width: 86.36 cm / 34 in
- ▶ Weight: 10 kg / 22 lbs
- ▶ Motor: 1 x Brushless thruster
- ▶ Remote Range: Up to 1 km
- ▶ Survey Speed: 2 kn / 1.5m/s
- ▶ Battery Endurance: 5 hrs
